

A full jump (14-15ml) is enough semen to Laprascopic AI 25-30 does (1 time), or splash breed 12-15 does (1 time), or breed 3-6 donors depending on combination of breeding with Laprascopic AI and/or Splash AI. A half jump (7-8 ml) is enough semen to Laprascopic AI 12-15 does (1 time), or splash breed 6-8 does (1 time), or Breed 1-3 donors depending on combination of Laprascopic AI and/or Splash AI. The cost of Laprascopic AI or Splash AI, Scheduling and Shipping is the responsibility of the Buyer. Collection and any associated cost of collection will be that of consignor. If you have any questions please contact consignor of lots. Please be aware of block out dates in which buck is already booked.

It should be noted that because of semen quality, mortality and other environmental factors that consignor may not be able to provide semen from first choice and will give buyer a choice of comparable bucks that are owned as a second choice. Consignor will provide the best quality semen available.

Bucks listed below are an example of the bucks that will be available for collection. Buyer is not limited to these bucks but they are an example of what is available
